Joseph Smith married at least 33 wives besides his first wife, Emma.

Joseph's polygamy is carefully documented in *In Sacred Loneliness: The Plural Wives of Joseph Smith* by Todd Compton. Compton is LDS and edited Hugh Nibley's *Mormonism and Early Christianity* for FARMS. Compton holds a PhD in Classics from UCLA and has earned numerous awards for his scholarship and has published in reputable journals both in his field and in Mormon Studies. Compton, like others who write the truth about Mormonism, has been relentlessly attacked by Mormons and their apologists because they are in denial about the fact that their founder was a pervert, liar and fraud.
